Art Unit: 3634

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bertsch et al. Bertsch et al. clearly show a door panel (14) having a formation (42) and a seal member (40) having a complementary shaped opening to that of the formation (42), a flap portion (the portion extending from the shaped opening), and a boot portion extending therefrom (42, 50, and 52).

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. patents to Hahn, Takahashi, Nakamura et al., Boyle et al., and Cunningham disclose elements similar to that of the applicants invention.
